Hertz Internationally

Walter L. Jacobs founded hertz in 1918 in Chicago with an initial fleet of 12 Ford Model-T. After a number of changes in ownership it is bought out in 1994 by Ford Motor Company and operates as an independent subsidiary. In 1997 its stocks enter the New York Stock Exchange until 2001, when it was completely bought out by Ford Motor Company and its shares were no longer negotiated in the NYSE. Since December 2005 Hertz belongs to 3 of the leading Investment Companies of Private Capital: Clayton, Dunilier & Rice, The Carlyle Group and Merrill Lynch Global Private Equity.

Today, Hertz's headquarters are in Park Ridge of New Jersey and is the biggest company in the world in the field of car rental. At the same time, it constitutes the biggest company in the USA in the field of industrial and construction equipment rentals.

The name of Hertz is internationally associated with high quality car rentals. The company has the biggest system of car rental in the world with more than 7,500 sales points in over 150 countries, of which about 2,000 are at airports. Its world reservation centre handles 40 million phone calls and makes 30 million reservations a year. Its human resources exceed 30,000 staff, whereas its annual car purchases for the renewal or increase of its fleet make it the biggest private car purchaser in the world.

Hertz is directly involved in the business in big European countries through its subsidiaries whereas in smaller markets like the one of Greece it operates through a franchising system. Autohellas is the biggest Hertz franchisee globally.

Hertz in Greece – Brief History

Hertz Hellas is founded in Greece in 1962 as a subsidiary of Hertz international.

4 years later T. Vassilakis signs an agreement for the representation of Hertz in Crete with an initial fleet of 6 Volkswagen Beetle and in 1974 he buys Hertz Hellas and renames it to Autohellas and assumes the representation of Hertz in the whole of Greece. In 1989, Autohellas introduces first in the Greek market the institution of Fleet Management (long-term rental and fleet management) so as to cover the needs of different companies in the best possible way. In 2003, Autohellas buys Autotechnica Ltd, which is the national franchisee of Hertz in Bulgaria as well as importer/distributor of SEAT vehicles.

In June 2005 a new company starts in Cyprus which takes advantage of the representation of Hertz which was given to Autohellas for Cyprus. Autohellas expanded therefore its presence to 3 countries: Greece, Bulgaria and Cyprus. On top of that, Autohellas is the owner of 50% of the shares of ELTREKKA S.A., which is a company involved in the trading and distribution of spare parts for cars. The other 50% belongs to ELTRAK.

Hertz International – Contracts

The contract with Hertz international was renewed for 26 years on the 22.07.1998 being in effect since 01.01.1998, that is until 31.12.2023. According to this agreement, Autohellas has the exclusive right until the 31st of December of 2023 to use the name and the logos of Hertz in Greece, to receive information and know-how from Hertz as it concerns the car rental system as well as all the improvements in the sector of design and management of car rental services according to the Hertz system.

This exclusive agreement of particularly long duration (26 years) was made with Autohellas in view of its great success in the representation of Hertz in Greece in the last thirty years. This contract is the longest valid contract that Hertz has made internationally.

Through the international reservations system of Hertz, an immediate reservation is possible for whatever part of the world that Hertz has a presence. At the same time, all reservations from all over the world that concern Greece are immediately transferred to the reservation centre of Autohellas.

The royalties paid by Autohellas to Hertz International are calculated as a percent of different categories of income, such as days and mileage, insurance and various services.

3.1 Definitions

The Rent-a-Car sector is divided into two areas, Renting and Fleet Management (long term rental and fleet management)

The Renting sector covers the rental needs of private individuals as well as companies for occasional and short-term rentals.

The Fleet Management sector covers the long-term needs of clients for the rental and management of their fleet.

3.2 Information about the Sector

Tourism showed an increase in 2005, with the total number of arrivals reaching, according to estimations, those of 2003. The greatest part of the increase concerned the second half of the season, and had as its characteristic the late bookings. Although it was difficult to program and fully take advantage of this increase, Autohellas increased its turnover of the sector of short-term rentals in levels higher than 2003.

Year	Tourist Arrivals	Change
1990	8,873,310	
1991	8,036,127	-9.4%
1992	9,331,360	16.1%
1993	9,412,823	0.9%
1994	10,641,942	13.1%
1995	10,130,177	-4.8%
1996	9,233,295	-8.9%
1997	10,070,325	9.1%
1998	10,916,046	8.4%
1999	12,164,088	11.4%
2000	13,095,000	7.7%
2001	14,033,378	7.2%
2002	14,179,999	1.0%
2003	13,969,393	-1.5%
2004	13,200,000	-5.5%
2005E	14,000,000	6%

At the same time, the sector of Fleet Management continued to show the upward trend of the last years, showing that it is a market which has not matured fully and as a result it will steadily contribute to the prospects for an increase in turnover for Autohellas. As the company is a leader in the sector for many years, as a result of its infrastructure and the experience of its executives, it is in a position to take advantage of every increase in the market whereas the increase of its market share is a permanent aim.

There are more than 2,500 car rental companies in Greece who manage a fleet of approximately 52,000 cars, number which exceeds 100,000 if we add the cars which concern long-term rentals (Fleet Management)

One of the basic characteristics of the sector of short-term rentals is the small degree of concentration, as the average size of a Greek R-a-C business does not exceed 20 cars in contrast with other tourist countries such as Spain and Portugal.

As for the total of the rental market (short-term and long-term), four big companies (Autohellas/Hertz, Europcar, Avis and Pireos Best Leasing) seem to have about 40-45% participation in the sector as it concerns total size, such as the fleet of cars.

3.3 The progress of turnover per activity

Despite the post-Olympic games decline which became evident within the first months of 2005, Autohellas managed to increase its turnover by 2.18%, taking advantage of the increase of tourism in the second half of the season. The significance of the increase is certainly bigger if one takes into account that during 2004 the volume of business of Autohellas/Hertz included the income from work which came as a result of the Olympic games.

The table that follows presents the progress of volume of business of the company for the years 2004-2005, divided in the sectors of Renting and Fleet Management:

(€'000€)	Sales	Change	Fleet of cars	Change
2004	96,253,425.90		22,450	
2005	98,350,604.13	2.18%	23,500	4.7%

The next table presents the progress of the volume of business (turnover) for the years 2004-2005 divided in the sectors of Renting and Fleet Management:

(€'000€)	Renting	Fleet Management
2004	33.8	62.5
2005	31.5	66.9

Division of Sales between Renting & Fleet Management

The sector of Fleet Management continued its upward course, maintaining an average two-digit increase in the last five years and constituting the main force of increase of Autohellas-hertz and a factor of securing the stability of the future course of the company.

In the field of renting, the Olympic year of 2004 with the special collaborations of Autohellas with the providers/participants of the Olympic games and with the general financial well-being of the Olympic Games preparation offered increased income which are estimated at 8 million Euro approximately. The aim for 2005 was to cover this income as much as possible, something that was achieved for 5,5 million Euro approximately.

It is worth noting once more that the high participation (as a percentage) of Fleet Management as a percent of the total turnover of Autohellas (2/3 of the total income) as a result of the medium-term contracts of 3.5 years reduces to a great extent the consequences of possible reductions or increases in the tourist business and constitutes a factor of stability as it allows greater foresight as it concerns the future course and the progress of company volumes.

COMPARISON OF CHANGE IN RENTING SALES AND TOURIST ARRIVALS IN GREECE

Autohellas as a services company pays great attention to its human resources which constitute the heart of its operation.

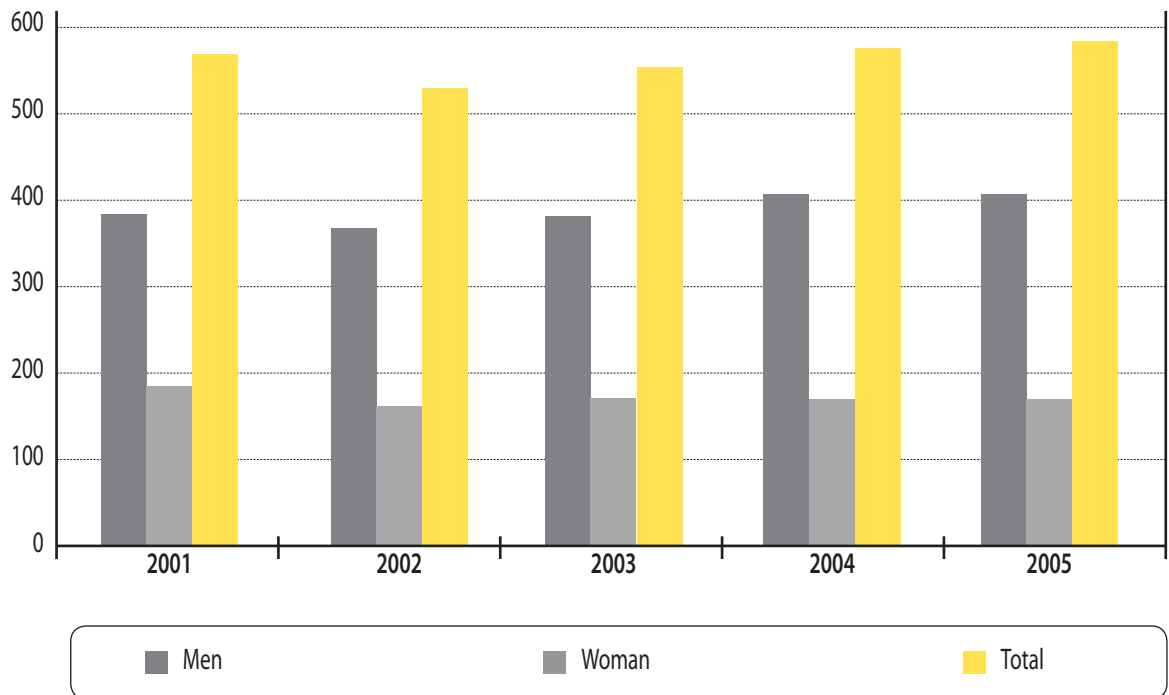

Because of the great seasonality of short-term rentals, the company is obliged to have great flexibility as far as its human resources are concerned. It is for this reason that every year, especially in the period April – October, a significant number of seasonal employees is hired on a specific term contract to cover the increased needs of the company during the summer months. So the company has the ability to adjust the number of its employees according to the course of its business always achieving high levels of productivity. The service of more rental days (over 38% since 2001) whilst keeping staff at the same level is indicative of this productivity.

Staff Change	2005	2004	2003

Branches	285	283	278
Staff total	566	550	535

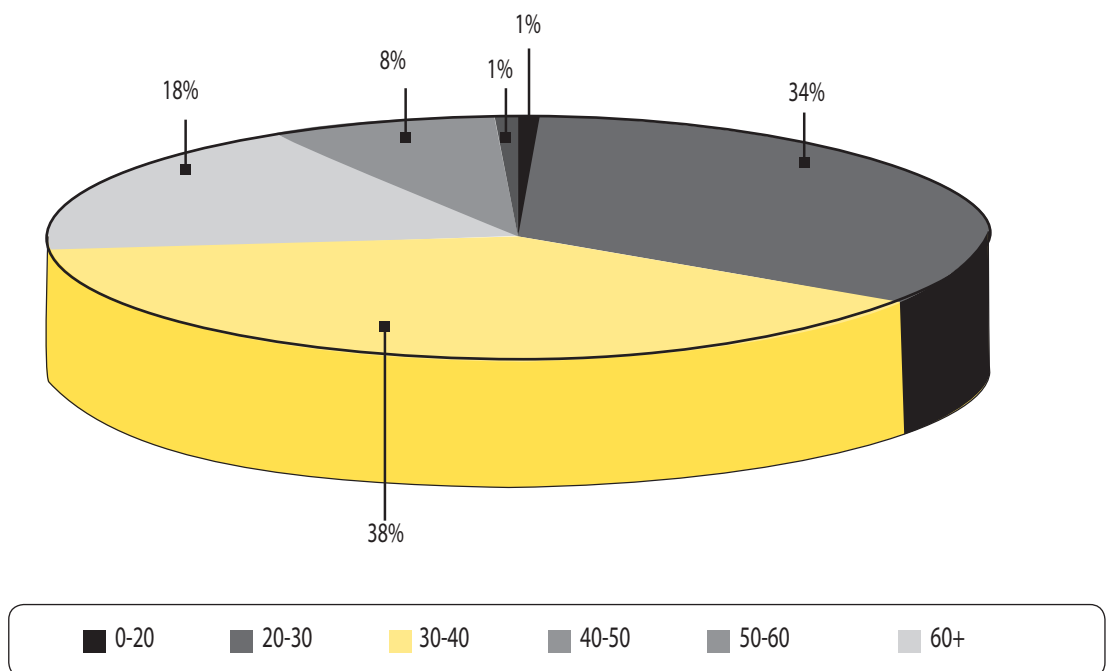

COMPARISON OF STAFF CHANGE AND RENTAL DAYS

DISTRIBUTION ACCORDING TO SEX

DISTRIBUTION ACCORDING TO AGE (AVERAGE AGE 34 YEARS)

The volume and quality of the rental network as well as car service constitute one of the biggest competitive advantages of Autohellas. The number of branches after an enormous increase in the previous decade (61 stations in 1994) has reached 117 stations (20 of which are at airports) covering the whole of mainland Greece as well as the majority of Greek islands.

In the table that follows we can see the change in branches from 2000 until 2005

Change in the network Of branches	2005	2004
Airports	20	20
Hotels	36	36
Cities	61	59
Total	117	115

Autohellas also operates its own service centres which work as garages, car body repair shops, car wash, exhibition and sales spots for the sale of second hand cars of the Autohellas fleet in places where the volume of business of the company can justify the volume of the investment.

As a result of its investments, the company is in the unique position to be able to serve its customers, its fleet of cars and its 16 branches in the whole of Attica from 3 service centres which are at a maximum distance of 20 minutes from any place in Athens. Taking advantage of these centres enables Autohellas to be active in the sector of fleet management of other companies. These centres contribute significantly in the second-hand sales procedure, with the volume of sales reaching 5,600 cars for 2005.

The shares of Autohellas entered the main market of the Athens Stock Exchange in August 1999, with the price on entry at 7.63 Euro. There was a split of the share in June 2004 so the data have been adjusted to present the correct development of volumes. The change of the share and the volume of transactions of the company shares in 2005 is as follows:

7.1 AUTOTECHNICA LTD (BEMAL AUTO LTD)

Participation 31/12/2005: 100%

On the 31 July 2003, Autohellas took over BEMAL AUTO LTD company, as was approved in the General Assembly of its shareholders on 22/05/2003, paying the price of 1,000,000 Euro. The company's share capital amounts to 1,000,000 Euro divided into 1,000 shares of face value 1,000 Euro. BEMAL AUTO LTD is based on Cyprus and its exclusive activity is the ownership of AUTOTECHNICA LTD which is based in Sofia, Bulgaria. AUTOTECHNICA was founded in 1995 and is the national franchisee of Hertz in Bulgaria as well as the importer/ distributor of SEAT cars. The company shows continuous profits, with its turnover at 7 million Euro and its profits before tax amounting to 436 thousand Euro. In 2004, Autohellas increased directly the capital of AUTOTECHNICA by 2 million Euro so that it could fund its activities. The total of own capitals amounts to 4.1 million Euro.

Car rental constitutes 1/3 of its turnover reaching 3.1 million Euro from 2.4 million Euro in 2004. The tourist market in Bulgaria is developing at a very high pace with more tour operators including it in their programs as a cheap destination for the British and German market. Arrivals for 2005 are estimated at 4 million. The prospects for short-term as well as long-term rentals are very good.

7.2 DEMSTAR RENTALS 2005 LTD

Participation 31/12/2005: 75%

Demstar Rentals started its operation in Cyprus in June 2005. The company essentially profits from the Hertz representation in Cyprus that was given to Autohellas.

Autohellas participates in DEMSTAR RENTALS 2005 by 75% with the remaining 25% belonging to a Cypriot businessman. The total investment of Autohellas is 2 million Euro. Although the volume of business is still small and the time of operation of the company is just 7 months the prospects appear to be very good. The deregulation of the Renting market (at this time the number of licenses is limited) which is expected in the immediate future according to the European Union directives, the extended tourist season and the experience and know-how of Autohellas guarantee its dynamic development in a traditional tourist destination (2,5 million tourists for 2005).

The sector of long-term rentals (Fleet Management) is a completely unexploited market in Cyprus. The development and establishment of the leading position in this market is the strategic aim of the company, with the experience of Autohellas being the basic competitive advantage towards its achievement.

7.3 PIREAUS BEST LEASING A.T.E.E.

Participation 31/12/2005: 48.08%

The company was founded in 1997 and its duration is until 2087. The company is registered in the Register of S.A.'s of the Prefecture of Athens with Reg. No 37800/01/B/97/155. Its registered office is in Athens at 87, Syggrou Ave, 11745. Its share capital on the 31/12/2005 amounts to 1,784,340 Euros divided in 59,478 shares of face value 30 Euro each. The value of 48,08% of Autohellas appears amounts to 2,691,220.07 Euro, whereas the owned capitals of Pireaus Best leasing at the end of 2005 amounted to 10,385,319.53 Euro.

Pireaus Best Leasing is a similar company with Autohellas operating exclusively in the sector of long-term car rental (Fleet Management) and its aim is to meet the needs of companies. It was taken over in September 1999 by Autohellas and Pireaus Leasing and was renamed Pireaus Best Leasing.

Pireaus Leasing, which secured the necessary capital for the increase of its fleet, has the management of the company. Its sales promotion comes from existing and new clients as well as the network of the Pireaus Bank Group. Autohellas offers Best leasing its know-how and its purchasing power (car, spare parts and insurance purchases), while at the end of 2002 the service of the maintenance needs of the Best Leasing fleet started at the premises of Autohellas so as to achieve a further reduction of the operating cost of the company as well as the best exploitation of the new investments of Autohellas.

The fleet of Best Leasing reached 6,100 cars in 2005, giving it the third position in its field. The turnover of the company reached 30.1 million Euro in 2005, which is a 32% increase from last year, whereas the company had 2.2 million Euro profits before tax. The increasing volume of business and the further reduction of operating costs will lead the company to better results in 2006 and the years to come.

Its share capital amounts to 6,110,202.00 Euro and is divided into 207,830 shares of face value 29.40 each.

The main activity of the company is the import, storing, trading and distribution of car spare parts of different international houses in the Greek market. ELTREKA with its wide range of products aims at a 3.6 million car and 1 million truck market with an annual turnover of 200-300 million Euro and is considered a leading company in the aftermarket spare parts market. In 2005, its turnover amounted to 20.5 million Euro and had 289 thousand Euro profits before tax.

Autohellas owns 50% of the shares and the value of its participation is 2,200,001.02 Euro. The remaining 50% belongs to ELTRAK S.A.

Autohellas with its participation in ELTREKA looks forward to the reduction of the cost in the garages and car body repair shops that it owns for the service of its fleet of cars.

8.1 MULTIFIN S.A. (12.5%)

The company was founded in January 1998 (Government Gazette 1738/1998) with a duration of 90 years. It is registered in the Registry of S.A.'s of the Prefecture of Athens with Registration Number 4265/B/98/171. The registered office of the company is at 13, Posidonos Ave, Municipality of Alimos Attica.

Its initial share capital amounted to 1 billion drachmas divided into 1,000,000 shares of face value 1,000 Drs each. In 1999 it went ahead with an increase in the share capital which amounted to 4 billion drs. In 2002 the company converted its share capital into Euro. During this conversion, it capitalized on profits so as to make each share 3 Euro and its share capital amounted to 12 million Euro. The owned capitals of the company reached 15,501.3 thousand euro at the end of 2005. The participation of 12.5% of Autohellas in its books amounts to 5,500,000 million. Multifin is a company of the Pireaus Bank group who has 87.5% of the shares and the management. The products that the company offers are:

- Funding of the purchase of new and second-hand cars, motorcycles and boats
- Funding of the car stock of collaborating merchants.

Pireaus Multifin collaborates with more than 500 car trading companies, among which one can find some leading representatives.

During 2005, the funding of retail sales amounted to 253.5 million Euro at the end of the year and this corresponds to 24,794 cars. Correspondingly, the turnover of the company in 2005 reached 364.5 million Euro and the profits before tax exceeded 7.7 million Euro.

The dividend for 2004 which concerns Autohellas and is incorporated in the financial data amounted to 571.25 thousand Euro.

The participation of Autohellas in this company, apart from the interest in the participation itself, enables the company to sell its second-hand cars faster and more efficiently. The speed and the resale price of used cars are a determining factor in the profitability of Autohellas. In particular, Autohellas sold almost 16% of its second-hand cars through funding from Multifin.

Aegean employs more than 1,600 employees and has 59% of the domestic flights market of Greece.

Aegean offers flights to 15 Greek destinations and another 8 European destinations. Through its collaboration with LUFTHANSA it offers additional flights to Munich, Frankfurt, Amsterdam, Brussels, Hamburg, Larnaca, Hanover, Berlin and Paris which take place with a common code, whereas through its commercial collaboration with AIR ONE it extended its network in the Italian market offering additional flights to Milan, Venice, Turin, Genoa, Palermo, Katagna and Lamezia Terme.

On top of that, the collaboration of Aegean with Lufthansa offers passengers new advantages as they already can, among others, collect and use miles in the global network of Lufthansa.

Its total fleet consists of 19 aircrafts, which run scheduled and chartered flights in more than 60 airports both in Greece and abroad. The turnover of Aegean Airlines in 2005 reached 336 million Euro and the number of passengers exceeded 4 million.

Its ongoing development, the ideal exploitation of its fleet as well as the further improvement of productivity of its human resources allowed the company to achieve for a third consecutive year profits which amounted to 20.4 million Euro before tax, despite the particularly negative conditions as it concerns competition, the general economic environment and the soaring of fuel prices in particular.

Aegean collaborates with Autohellas, through serving its customers with rented cars at special prices as well as the creation of the special programs loyalty and fly & drive through the Frequent Flyer program of Aegean (Miles & Bonus)

ANNUAL REPORT 2005

**BOARD OF DIRECTORS' REPORT
AUTOHELLAS TOURIST AND TRADING ANONYMOUS COMPANY
TO THE ORDINARY GENERAL ASSEMBLY OF SHAREHOLDERS**

In respect of the Individual and Consolidated Financial Statements of 31.12.2005.

Dear Shareholders,

On filing the company's Individual and Consolidated Financial Reports for the corporate use which expired on December 31st 2005 subject to approval, we present this annual report over the company's Individual and Consolidated Financial Statements for your complete information over the activities and prospects of our company.

• **GENERAL:**

Autohellas S.A. represents HERTZ largest national franchisee globally. By virtue of agreement, Autohellas S.A. has the exclusive right to use the Hertz brand name and trademark in Greece, to receive information and know-how relating to the operation of car rental system, as well as any improvements in designing and implementing rental services under the Hertz system. Autohellas extended this right in 1998 until the 31st of December 2023. This extraordinary in duration agreement has been granted to Autohellas as a result of Hertz' successful representation in Greece during the past 30 years.

• **ACTIVITY:**

The two main sectors of the company's activity are Renting (short-term rental) and Fleet Management (long-term rental and fleet management).

Renting Sector covers the rental needs of individual clients as well as companies for occasional, short-term rentals of up to 1 year.

Fleet Management Sector covers the long-term needs of its clients for rental and management of their fleet.

The year 2005 has been a particular year for Autohellas as it saw some of its figures decrease. More specifically, the consolidated turnover reached the amount of 98,350,604.13 €, presenting an increase of 2%, the lowest percentage of at least the last decade. This was a result of the decrease in Renting earnings and of the lower –in relation to the past years- increase in Fleet Management.

In the Renting Sector, the Olympic year of 2004, with Autohellas' special collaborations with the Olympic Games' suppliers / participants, as well as with the general financial prosperity of the Olympic Games preparation, created increased earnings that reached the amount of approximately 8 million €. The target for 2005 was the highest possible coverage of these earnings, a target that was achieved for approximately 5.5 million €.

The tourist movement, which presented an increase of 6% in 2005, contributed to the effort to cover the loss of earnings coming from the Olympic Games.

This resulted in Renting having total earnings of 31.5 million €, reduced by 6.8% compared to the 33.8 million € in 2004.

In the Fleet Management Sector, the post-Olympic depression of the Greek economy, especially during the first months of 2005, in constructive industry as well as in trading companies contributed to the decrease of the market's growth rate. According to the SEAA (Association of Motor Vehicle Importers Representatives), the corporate new car sorting presented a reduction of approximately 10% in 2005. This fact resulted in the "net" increase of the fleet to be held at 2.6%, even though the total revenue reached the amount of 66.9 million € instead of 62.5 million € in 2004, that is an increase of 7%.

The participation of Fleet Management in the consolidated turnover of Autohellas reached 68%, increasing each year the turnover's stability, as the contracts with the long-term renting clients have an average duration of 4 years.

• RESULTS

The profits after tax marked a reduction of 6.4%, reaching 13,694,472.56 € from 14,623,378.59 € in 2004. Respectively, the profits before tax and depreciations had decreased by only 0.7% reaching 56,094,582.91 € from 56,489,904.54 € in 2004. However, the return on net assets reached 18%, the highest of the industry and one of the highest in the market.

The small increase by 2.2% in turnover, together with the preservation of the network and the increased fleet the beginning of 2005, because of increased purchases in 2004 for the needs of the Olympic Games, resulted in the above mentioned reduction of earnings. More particularly, car depreciations increased by 52% amounting to 36.2 million € instead of 34.4 million in 2004.

TOTAL:		26,400,637.32	

Autotechnica Ltd and Demstar Rentals 2005 Ltd comprise the two fully consolidated companies in the results of Autohellas S.A.

Respectively, Piraeus Best Leasing S.A. and ELTREKKA S.A. are consolidated by the net position method. At a consolidated level, the Group's turnover reached 107,528,401.51 € instead of 104,441,939.98 € in 2004, increased by 3%, while the results after tax amounted to 15,868,547.72 € instead of 16,869,302.96 € in 2004, decreased by 5.9 %.

More specifically, Autotechnica is Hertz' national franchisee in Bulgaria, while being the importer / distributor of SEAT cars. During 2005 it stopped AUDI cars representation, which resulted in a reduction of turnover and earnings. In particular, in 2005, the turnover reached 7 million € instead of 8.2 million € in 2004, reduced by 15% and the profits after tax reached 370 thousand € instead of 676 thousand € in 2004, reduced by 45%.

Demstar Rentals 2005 started its activity in June 2005 and it is Hertz's national franchisee in Cyprus. Autohellas has the representation right, and this right has been assigned to Demstar Rentals 2005 Ltd. Autohellas participates by 75% in Demstar Rentals 2005, while the remaining 25% belongs to a Cypriot businessman. Autohellas' total investment was 2 million €. The consolidated turnover for the 7 months of 2005 reached 2.2 million €, while profits after tax reached 74 thousand €.

As far as Piraeus Best Leasing is concerned, turnover reached 30.1 million € and earnings before tax reached 4.5 million €. The company is actively involved in long-term car rentals with a fleet of 5,850 cars in 2005. Autohellas has undertaken the maintenance and management needs for a large part of this fleet.

The main activity of ELTREKKA S.A. is the importation, storing, trading and distribution of car spare parts of many international houses in the Greek market. Autohellas completed the acquisition of 50% of the company in July 2005 and the total investment reached 2.2 million €.

Turnover in 2005 closed at 20.9 million € and earnings before tax at 224 thousand €

As for the rest of the participations, Multifin is an important collaborator in the process of Autohellas' used cars disposal, which in 2005 reached the total amount of 5,600 cars, while with Aegean Airlines it has an exclusive collaboration for the promotion of car rentals to its clients.

• NEW ACTIVITIES

In the end of 2005, Autohellas started getting actively involved in the new field of machinery and equipment rentals, such as power generators, compressors, lift trucks, small earthmoving equipment, under «HERTZ EQUIPMENT RENTAL». The new sector is addressing clients of various categories, such as the construction industry, manufacture, logistics, organization of exhibitions and events, etc...

In Europe, Hertz started this activity in 1988 in Spain and in France; the turnover of these two countries was approximately 100 million € in 2004.

Today, there is a branch operating in Paiania, Attica, Greece, while the relevant advertising campaign has already started dynamically.

• PROSPECTS :

The year 2006 is expected to be better than 2005.

The continuous efforts to promote tourism on the part of the Greek state, by taking advantage of the country's increased publicity because of the Olympic Games, predict a further increase of arrivals. At the same time, the signs from the international tourist exhibitions are positive for the Greek market.

Additionally, Autohellas started re-approaching, and to some extent has already achieved new collaborations with Tour Operators, a market from which it had chosen to retire for commercial reasons during the past years.

As far as the long-term rentals are concerned, the year 2006 is expected to maintain the same pace of growth as more and more companies of small size recognize the institution and the benefits the product is offering them. Autohellas' aim is to maintain its share in this development.

After Autotechnica's loss of profits in Bulgaria because of discontinuing the collaboration with Audi, these figures are expected to improve. A main factor towards development is car rentals, either short-term or long term. Bulgaria's tourist market even though still too limited, it is expected to continue growing at a fast pace. The same goes for enterprise development, especially because of Bulgaria's prospects of entry into the European Union in 2007.

Finally, the aim for Cyprus is "Demstar Rentals 2005" to assume a leading role in market in the next few years, while the prospects for further development are combined with the expected liberalization of the car rental market.

According to the above mentioned, the auditors' report, as well as the annual financial statements of December 31st 2005, we believe you have at your disposal all the necessary documentation to proceed with the approval of the annual Financial Statements for the year expired on December 31st 2005 and to disengage the Board of Directors and the auditors from all responsibility.

Accounting Policies

Basis for preparation of the financial statements.

The consolidated financial statements of Autohellas A.T.E.E., are covering the accounting period of 2005. They have been compiled based on IAS, that have been adopted by the European Union.

The policies mentioned below have been consistently applied throughout all the periods of 2005.

The company and consolidated financial statements, have been compiled based on the Greek Accountant Standards until 31.12.2005. These Accountant Standards differ in certain regions from the IAS.

Both Company and consolidated financial statements, have been reported according to the Greek accounting standards up to the year 2004. Since there are essential differences between the Greek standards and the IFRS, for comparison reasons, figures for 2004 have been reported according to the IFRS accounting principles and standards.

Current financial statements, have been reported using the historical cost method, with the exception of financial assets available for sale, which were valued at their fair value with changes recognised on the income statement.

The compilation of financial statements according to IAS requires the use of estimates and judgements during the application of the company's accounting principles.

Consolidation – Subsidiaries and Associates valuation

The purchase method has been used for the consolidated financial statements. The acquisition cost of a subsidiary is the fair value of the assets, the shares issued and the liabilities undertaken on the date of the acquisition, plus any cost directly associated with the transaction. The individual assets, liabilities and contingent liabilities that are acquired during a business combination are valued during the acquisition at their fair value regardless of the participation percentage. The acquisition cost over and above the fair value of the individual assets acquired, is booked as goodwill. If the total cost of the acquisition is lower than the fair value of the individual assets acquired, the difference is immediately booked to the results.

Inter-company transactions, balances and unrealized profits between Group Companies are written-off. Unrealized losses are also written-off as long as there is no indication of impairment of the transferred asset. The accounting principles of the subsidiaries conform to the ones adopted by the group.

Associates are companies on which the group can exert significant influence (but not control), with a holding of between 20% and 50% of the company's voting rights. Investments in associates are valued using the equity method and are initially recognised at cost. The account investment in associates includes the goodwill less any decrease in its value.

The group's share in the profits or losses of associated companies after the acquisition is recognised in the income statement, while the share of changes in reserves after the acquisition is recognised in the reserves. When the group's share in the losses of an associate is equal than its participation in the associate, then, no further losses are recognised, unless further commitments have been made on behalf of the associate.

Participants of the parent company in subsidiaries and associates are valued at cost less any decrease in value.

Information per sector.

Parent company's activities are the renting of vehicles and is conducted solely in Greece. Subsidiary's activities include renting of vehicles and vehicle trade and is conducted solely in Bulgaria and Cyprus.

Tangible assets

Tangible assets are reported at acquisition cost, less accumulated depreciations. The acquisition cost includes all the directly attributable expenses for the acquisition of the assets.

Plots are not depreciated. Depreciation of the rest tangible fixed asset is calculated using the straight line method over their useful lives, as follows :

Vehicles	2 - 5	Years
Buildings	30 - 35	Years
Mechanical equipment	6 - 7	Years
IT equipment	3 - 4	Years
Other equipment	5	Years

Vehicles residual values are being calculated based on their current values. No evaluations have been made regarding the residual values of the rest tangible assets.

When the book value of tangible fixed assets exceeds their recoverable amount, the difference (impairment) is immediately booked as an expense in the results.

Upon sale of the tangible fixed assets, any difference between the proceeds and the book value are booked as profit or loss to the results.

Intangible asset

(a) Trade marks and licenses

Trade marks and licenses are valued at their acquisition cost less any accumulated depreciations. Depreciation is calculated using the straight line method over their useful lives which is 5 years.

(b) Computer software

Computer software licenses are reported at acquisition cost, less accumulated depreciation. Depreciation is calculated using the straight line method over their useful lives which is from 3 to 5 years.

Impairment of Assets

Assets that are depreciated are subject to an impairment review when there is evidence that their value will not be recoverable. The recoverable value is the greater of the net sales value and the value in use. Impairment losses are booked as expense when emerge.

Financial Assets available for sale, valued at fair value, with changes in fair value recognised in the results.

Financial assets available for sale are valued in their fair value and any change in the fair value, is booked in equity reserves until they are sold or characterised as impaired, at which time they are transferred to the results as profit or loss.

Derivatives which are not designated and effective hedging instruments, are valued at fair value, with any changes recognised through the income statement.

Trade receivables

Receivables from customers are initially booked at their fair value which is equal to their face value less any impairment losses. Impairment losses (losses from doubtful debt) are recognised when there is objective evidence that the group is in no position to collect all relevant amounts, owed on the contractual terms. The impairment loss amount is calculated as the difference between the receivables book value and the future cash flow. The impairment losses are recognised in the income statement.

Cash and cash equivalents

Cash and cash equivalents include cash, cash at the bank as well as short term (up to 3 months), highly liquid and low risk investments.

Transactions in Foreign currencies

The transactions that are denominated in foreign currencies are stated in Euro on the basis of the exchange rates ruling on the date of the transaction. On the balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are re-stated in Euro on the basis of the exchange rates ruling on this date. The gains and losses arising on restatement are recognised in the income statement

Any gains and losses arising from the conversion of foreign financial statements are recognised as net worth reserve.

Share Capital

Common stock is reported as equity. Expenses incurred for the issuance of shares reduce, after deducting the relevant income tax, the proceeds from the issue. Expenses incurred for the issuance of shares for the acquisition of companies are included in the acquisition cost of the company.

The cost of acquiring own shares, less the relevant tax, is reported as a negative balance within shareholders equity, until own shares are sold or canceled. Any profit or loss from the selling of own shares (after deducting the relevant costs), is reported as reserve on equity.

Loans

Loans are initially reported in their fair value, less any relevant transaction costs. Later they are valued on the unamortised cost using the actual interest rate.

Deferred income tax

Deferred income tax is determined according to the liability method which results from the temporary differences between the book value and the tax base of assets or liabilities. Deferred tax is calculated on the tax rates that are expected to be in effect during the period in which the asset or liability will regain its book value.

Deferred tax assets are recognised to the extent that these will be a future tax profit to be set against the temporary difference that creates the deferred tax asset.

Employee benefits

(a) Short term benefits

Short term employee benefits monetary and in kind are recognised as an expense when they accrue.

(b) Post employment benefits Post employment benefits include defined contribution schemes as well as defined schemes. The accrued cost of defined contribution schemes is booked as an expense in the paid period it refers to. The liability that is reported in the balance sheet with respect to this scheme is the present value of the liability for the defined benefit. The commitment of the defined benefit is calculated annually by an independent actuary with the use of the projected unit credit method. The field of long-term Greek Government Bonds is used as a discount rate.

Provisions

Provisions are recognised when the Group has present obligations (legal or constructive), as a result of past events and the settlement through an outflow is probable.

Recognition of income

Income includes the fair value of goods and services sold, net of value added Tax, discounts and returns. Intercompany revenue within the Group is eliminated completely. The recognition of revenue is done as follows :

(a) Income from services sold (Car Rentals)

Income from services sold are accounted for based on its completion percentage.

(b) Earnings from car sales

Earning from car sales is recognised at the stage when the basic risks and benefits associated with the ownership of the cars, are transferred to the buyer.

(c) Income Interest

Income interest is recognised on a time proportion basis using the effective interest rate.

(d) Dividends

Dividends are accounted as revenue, when the right to receive payment is established, in other words on the date the dividends are declared.

Leases (Group company as Lessee)

Leases of fixed tangible assets, owned by the Group, with which all the risks and benefits are transferred, are registered as financial leases. Financial leases, are capitalised at the inception of the lease and are reported as liabilities with an amount equal to the net lease investment. The income from the payments is reported as a reduction of the liability and as a financial income, in a way that a constant periodic return on the net investment is ensured.

Dividend Distribution

The distribution of dividends to the shareholders of the parent company is recognised as a liability in the financial statements (parent and consolidated) at the date on which the distribution is approved by the General Meeting of the shareholders.

Financial Risk Management**Financial Risk Factors****(a) Credit Risk**

The company's credit risk is low. Retail sales are either in cash or through credit cards. Wholesome sales are conducted only after a thorough examination of the customers credit profile and in most cases advance payment and guarantees are ensured.

(b) Liquidity Risk

Liquidity risk is kept at low levels, through the adequate credit lines.

(c) Cash flow Risk and interest rate risk

Company is under interest rate risk since it has long term borrowing on floating interest rate (Euribor). The loan, on the other hand has been partially hedged with an interest rate switch hence limited risk exists.

Important accounting evaluation and management judgments

Management evaluations and judgments are under constant re-examination based on past experience and expectations for future events.

The company makes evaluations and assumptions on the outcome of future events. No evaluations or assumptions involve high risk in causing major adjustment in company's assets book value or in liabilities for the next 12 months.

- Dividends according to the Greek accounting standards were recognised as a liability at the annual financial statements date. According to IFRS, dividends are recognised as a liability at the date when the General Shareholders meeting gives its approval. The effect on equity on 31.12.2003 and 31.12.2004 was € 7.200.000,00 and € 7.560.000,00 respectively.
- 2-3. In line with the formerly used accounting standards provisions, no recognition of deferred tax was made. The effect of deferred tax recognition on equity on 31.12.2003, on the financial results of 2004 and on equity on 31.12.2004 is (12.105.275,41 €) , 667.344,29 € and (11.437.931,12€) respectively.
4. Depreciation was calculated based on tax rates in accordance to formerly used accounting principles. Furthermore, tax reajustments on buildings occurred every four years. According to IFRS, depreciations are calculated based on the expected useful life of the asset and no tax reajustments are recognised. As a result, equity on the 31.12.2003 has been adjusted by 46.053.178,54 €, 2004 year end results by 23.352.267,97 € and finally equity at 31.12.2004 by 69.405.446,51 €.
5. As a result from the depreciation rate change, earning from sales fixed assets as well as equity on 31.12.2004 has been adjusted by (17.444.259,04 €).
6. According to IFRS, amortization expense are not recognised. The impact from their write-off on equity on the 31.12.2003, on 2004 annual results and on equity on the 31.12.2004 is (249.284,61 €), 144.717,02 € and (104.567,59 €) respectively.

- 7.- 8. Participations according to formerly used accounting principles were valued at the lowest between acquisition and current price. According to IFRS, participations are valued based on the fair value and as a result equity has decreased on 31.12.2003 by 2.090.000,00 €, equity on 31.12.2004 by 193.105,61 € and to increase equity on 31.12.2003 and on 31.12.2004 by 3.738.356,57 € respectively.
9. Loan expenses, according to the formerly used accounting principles, were acknowledged at the time the loan was granted. In IFRS, loan expenses are divided between the loan duration. The effect on results on 31.12.2004 and on equity 31.12.2004 is 752.000 € and 752.000 € respectively.
10. Post employment benefits include both defined contribution schemes as well as defined benefits schemes. The accrued cost of defined contribution schemes is booked as an expense in the paid period it refers to. The liability that is reported in the balance sheet with respect to this scheme is the present value of the liability for the defined benefit. The commitment of the defined benefit is calculated annually by an independent actuary with the use of the projected unit credit method. The field of long-term Greek Government Bonds is used as a discount rate. Based on the above, equity on 31.12.2003, results on 31.12.2004 and equity on 31.12.2004 have been adjusted by (720.708,23€), (35.086,55 €) and (755.794,88 €) respectively.
11. According to formerly used accounting principles, no valuation of derivatives was made. Any difference in the derivatives life will be reported in the results. According to IFRS, derivatives are valued at fair value. The effect from the valuation on equity on 31.12.2003, on the results and equity on 31.12.2004 was (2.357.954,19 €), 365.096,20 € and (1.992.857,99 €) respectively.
12. According to formerly used accounting standards, leases of tangible fixed assets, which are property of the Group and for which all the risks and benefits are transferred, are operating leases. According to IFRS they are finance leases and are capitalised at the inception of the lease. They are reported as liabilities at an amount equal to the net lease investment. Each lease payment is apportioned between the reduction of the liability and financial income, so that a fixed interest rate on the investment is achieved. The effect of this on equity on 31.12.2003 and on results and equity on 31.12.2004 was (8.042.575,31€), (3.185.200,73 €), (11.227.776,04 €), respectively.
13. According to formerly used accounting principles, own shares are reported as securities, with the relevant reserve on equity. According to IFRS, own shares are reported as a negative balance within shareholders equity. The effect of this adjustment on equity on 31.12.2003 and on 31.12.2004 (809,88 €).
14. Differences in the consolidation method, are the result of implementing the net worth method between the formerly used accounting principles and the IFRS. As a result, adjustments have been made on equity on 31.12.2003, results on 31.12.2004 and equity on 31.12.2004 by (888.028,61 €), 1.882.767,77€, (356.709,29 €), respectively.

Detailed accounting estimations

30.1. Fixed tangible assets usefull lives

The company's management is responsible for determining the usefull lives and hence the rate by which the tangible assets will be depreciated.

Due to the nature of the company's activities, no substantial change in the usefull life estimation is expected. Management will increase depreciation when usefull lives become smaller than previous estimations, or will decrease the assets value when they have been technologically devaluated or when the assets become of less importance or are abandoned or are about to be sold.

INTERCOMPANY TRANSACTIONS REPORT**(Article 2, par.4, Law 3016/2002)**

In respect of the intercompany transactions of the company AUTOHELLAS S.A. with associated companies during the period of 01.01-31.12.2005; these transactions concern the companies: AUTOTECHNICA LTD, BEMAL AUTO LTD and DEMSTAR RENTALS 2005 LTD.

AUTOHELLAS S.A. acquired AUTOTECHNICA LTD by buying out its owner, BEMAL AUTO LTD, a Cypriot company having as its exclusive activity the ownership of AUTOTECHNICA LTD, situated in Sofia, Bulgaria. AUTOTECHNICA LTD was founded in 1995 and it is Hertz's national franchisee in Bulgaria, while being at the same time a SEAT cars importer / distributor. The takeover took place in July 2003 and the first consolidation on the third quarter of 2003.

In 2005, AUTOHELLAS SA proceeded with the founding of the subsidiary DEMSTAR RENTALS 2005 LTD, participating with the amount of € 2,061,004.50, that is holding percentage of 75%. The remaining 25% belongs to a Cypriot businessman. DEMSTAR RENTALS 2005 LTD is Hertz' national franchisee in Cyprus. The first consolidation took place on 31.12.2005.

The inter-company transactions during the period from 01.01.2005 to 31.12.2005 were as follows:

- a) Monthly fee of € 2,800 paid to AUTOHELLAS SA for providing AUTOTECHNICA LTD with consultancy services.
- b) Monthly fee of € 6,300 paid to AUTOHELLAS SA, since 01.06.2005, for providing DEMSTAR RENTALS 2005 LTD with consultancy services.
- c) One-off payment of € 122,057.54 to AUTOHELLAS SA for the provision of consultancy services to create a computerized system and the relevant supporting software, for personnel training as well as for preparing an organizational plan designating the responsibilities of each employee, in order to ensure the prompt organization and operation of DEMSTAR RENTALS 2005 LTD, and finally, the supervision of the development of its facilities and offices.
